Commissioner Kathleen Abernathy
445 12th Street SW
Washington, DC 20554

Commissioner Abernathy:

I am writing to express my dismay over the programming that is broadcast over the t.v. Each season, I find that I have to eliminate more and more from our household. I must say I am very disappointed in the limited number of things we can watch together as a family. I am so sick of all the violence and gore, sexual references, and lack of appropriate entertainment. It has gotten so bad, that some shows that my husband and I enjoyed when they first began running (one that comes to mind is CSI), is no longer enjoyed and therefore no longer watched. I wish the entertainment industry would clean up its act and start offering family-friendly fare with good old-fashioned values (ex. The Waltons, Brady Bunch, Andy Griffith, Beverly Hillbillies, etc). My kids love the Beverly Hillbillies as silly as it is, but it is entertaining and honest. The kids range in age from 6 - 14. Also, cable is pushing the limit. MTV is definitely not allowed as are many other networks. I would love to be able to pick and choose which cable stations could come into my home without having to pay and then block the ones I do not want. Truthfully, I am ready to put my t.v. to the curb. Please consider what is being fed to our future and what needs to be done to change this path we are going down. Thank you.

Sincerely,

Lori Dickson

Chairman Powell:

I personally think it's very harmful to children and adults alike to view the violence we are seeing on TV in recent years. I don't want my children, or grandchild, to watch it, as it is destructive. There have been recent indications that children imitate what they see. Watching violence desensitizes people to violence, and it becomes no big deal. But violence is a BIG deal in our society, ranging from spousal and child abuse to murder on the streets of America, even abortion. It's murder too. At some point we have got to wake up and notice the seeds we've sown into society are bearing the fruit of the same seed - violence. We need more family friendly shows, comedies and love stories. The violent programs are numerous and out-of-control. I don't even watch TV anymore because there's nothing on interesting enough to watch. Rarely there's a made-for-TV movie that has SOME redeeming value - most don't. Please hear us speak out on this - our society is at stake.

Sincerely,

Cathy A Harris

Thank you for the OPPORTUNITY to voice concern about violence in television programming. The preponderance of psychological studies show there is a clear link between viewing violent images, and acting out violent behavior, and also in TOLERATING violent behavior in others (such as "bullying" in school). Please do all you can to reduce or eliminate all kinds of violence (including verbal) on public television programs. Thank you.

July 30, 2004

Commissioner Kathleen Abernathy
445 12th Street SW
Washington, DC 20554

Commissioner Abernathy:

Recalling the days of the 50's and 60's I can't help but clearly observe the results on our youth and even adults in acting out what they see on television today. During those past decades I do not remember so much as a single act of violence that anyone acted out from viewing TV. I DO recall the first one reported in the media in the early 70's by a young boy in Florida who murdered his parents after (as he said in court) seeing a Kojak show. Since then I've lost count of the media accounts reporting the worst acts of violence by individuals from their earliest years to even middle age after viewing violent TV programming.

Today is worse that anyone could have imagined then. And even then, the longest running drama in TV history, Gunsmoke, was constantly being critized for it's content. Yet, I never read or heard of someone literally acting out anything they'd seen on that show. And even today in re-runs the show's edited out all of the scenes once considered too violent! But when it comes to the newer shows of today, even in prime time, the violence makes Gunsmoke's un-edited shows look tame...that is you can find an original version of one on a cable channel.

In short, if the FCC doesn't levy the heaviest fines possible (and YES against all protests) then society will continue to suffer the results the most atrocious acts of violence by individuals so affected by the shows. Plus, the shows will continue to take even greater liberties as long as the FCC remains silent!

Sincerely,

John Cutrell
